

Goldener Herbst Polymorphie: Class Diagram

Coldener Herbst Polymorphic : Activity Diagram - Moveable

Goldener Herbst Polymorphic Activity Diagram - Cloud

constructor

super(550, 100)

set size to 200, 75

move

super.move(1/50, 0)

draw

nParticles = 30

radiusParticle = 50

particle = circle with particle r

gradient : radial

save transform

translate to
position

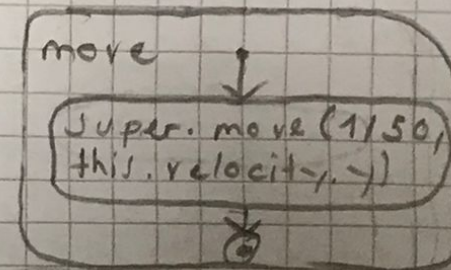

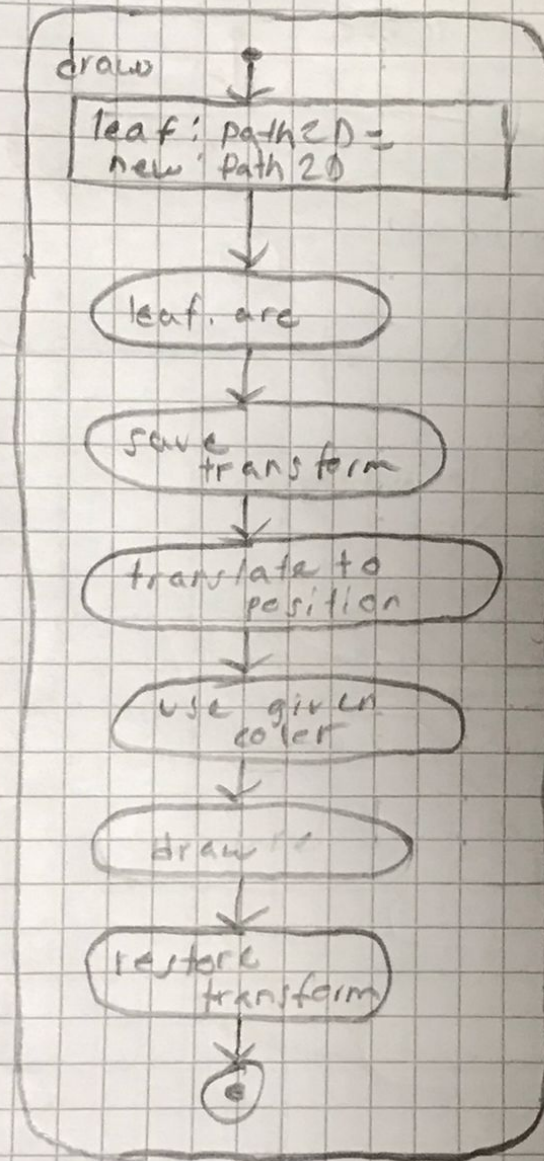

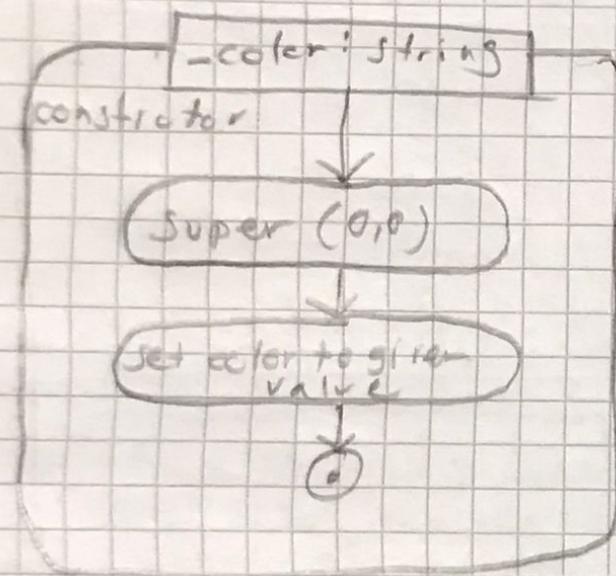

$x = (\text{random} - 0,5) * \text{size.x}$

$y = \text{random} * \text{size.y}$

draw
particle
